SECTION 3 - SERVICE DESCRIPTION AND RATES, (CONT'D.)

3.4 Miscellaneous Charges

3.4.1 Single Bill Fee

A Single Bill Fee will apply to Customer's telephone bill each month in which local or long distance collect calls are accepted and billed on the Customer's local telephone bill, or directly billed to Customer by Company invoice. This fee is for the purpose of offsetting Company's billing and administrative expenses associated with offering the convenience of receiving printed inmate call charges on a Customer's local telephone bill, or providing a paper invoice directly to Customer. This fee will be charged only once per billing period regardless of the number of calls accepted. The fee will not apply in any billing period in which no collect calls are accepted. This fee does not apply to prepaid services paid for by commercial credit card or other means.

Single Bill Fee, per month where applicable \$3.49

(I)

3.4.2 Biometric Service Charge

Biometric Service is an optional service that provides validation of an inmate's identity through unique personal verification, such as, but not limited to, voice verification technology, for purposes of improved security and reduced potential fraud and Customer harassment by inmates. This charge applies to automated calls placed by inmates of correctional facilities when such calls are provided through the Company's own processing equipment. Where Biometric Service is requested by correctional facilities, this charge applies in addition to all applicable institutional rates and charges specified in this tariff.

A. Biometric Service Charge

Charge per call, up to * \$0.45

* Where requested by correctional facility

3.4 Miscellaneous Charges, (Cont'd.)

3.4.3 Federal Regulatory Cost Recovery Fee

In addition to charges for service, a Regulatory Cost Recovery Fee may be applied as a flat fee once per month or as a percentage of an interstate or international call, depending on the manner in which a customer is billed for charges, to partially recover expenses incurred with regard to interstate and international regulatory costs and taxes. This includes, but is not limited to, such items as expenses associated with billing, collecting and remitting federal USF, the national fund for TRS, local number portability, federal regulatory fees, expenses for federal regulatory proceedings and compliance, portions of local and state property taxes associated with interstate and international calling and other non-income-tax related tax costs associated with interstate and international calling. This fee may vary as a result in fluctuations in the cost of regulatory compliance, but shall not exceed the fees posted.

A. Federal Regulatory Cost Recovery Fee:

Collect calls billed to local exchange carrier or billed directly by Company:
Per month: \$3.49

(I)

Prepaid and debit calls:
Per Calls: Up to 8%

3.4.4 Validation Surcharge

A four percent (4%) per-call surcharge will be applied to the base rate of all calls. The base rate of a call is set forth in Section 3 following, and does not include any applicable taxes, fees, or other surcharges that may apply to the call. The Validation Surcharge is applied to recover revenue lost due to the difficulty of rating calls and the cost of verifying the geographic location of the called party for security purposes pursuant to Correctional Institution contracts.

SECTION 1 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)

1.5 Advance Pay Accounts

In those areas where the Company does not have a direct billing agreement with the existing local exchange carrier, or upon a Customer's request, the Company will set up a Advance Pay Account with the Called Party (Customer) for payment of collect calls placed from institutions served by Global Tel*Link. Funds in the Customer's Advance Pay account may only be used for payment of collect calls placed by inmates to telephone numbers specified by the Customer. Establishment and maintenance of an Advance Pay Account is required to complete collect calls to Customers served by local exchange carriers with which the Company does not have an existing direct billing and collection agreement.

The minimum amount required to set up the Advance Pay Account is \$25.00. Upon request, and after the required minimum payment is received, the Company will provide the Customer with a personal identification number (PIN) and a toll-free number to call in order to set up the account information, including the permissible numbers that the inmate may call.

Additional payments will be accepted with a \$50.00 payment maximum. Initial and additional payments into the account may be made by cash, check, credit card or Western Union. Transaction fees will apply for credit card and check by phone transactions. All payments will be subject to applicable taxes.

When an inmate places a call, the Customer is informed of both the caller's identity and the account balance prior to accepting the call. Customers may also contact the Company's toll-free Customer service number for account balance information at any time.

If the Advance Pay Account balance becomes depleted, calls placed to the numbers specified by the Customer will be blocked until the Advance Pay Account is replenished.

The Customer may close the Advance Pay Account at any time. At the written request of the Customer (usually upon release of an inmate from an institution), any remaining balance in the Account will be refunded to the Customer after deducting any call charges, applicable taxes and transaction fees incurred during the current billing cycle. Advance Pay Accounts will be automatically dissolved following three months of zero activity (i.e., no calls placed, no account replenishment, no Customer service inquiries.)

All security measures and inmate calling restrictions as set forth elsewhere in this pricelist are also applicable for any calls made using an Advance Pay Account.

SECTION 1 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)

1.6 Inmate Telephone Debit Accounts

1.6.1 Definition

This is a prepaid telephone account available to inmates and other incarcerated persons at correctional facilities that permit this service. Participating individuals elect to transfer funds either from their facility's inmate trust fund or a commissary account. The transfer method is either manual (vouchers) or electronic through a funds transfer interface between the Company and the facility or commissary.

1.6.2 Call Process

The Company establishes debit accounts which are associated with the inmate's personal Identification Number (PIN). When a call is placed, either the "collect" or "debit" option is selected. Once debit is selected, the inmate enters the called telephone number and PIN. The Company's system automatically informs the caller of the Available Usage Balance remaining in the Prepaid Debit Account, and the rates for the call being attempted. Network usage for completed calls is deducted from the Available Usage Balance at the conclusion of the call.

Any unused funds in a Prepaid Debit Account are refundable upon request. Refunds are issued by the entity controlling the actual cash deposits, which depending on the specific arrangements, is either the Company, the commissary, the correctional facility itself or its agent, unless otherwise directed by state law. The Available Usage Balance expires three months from the date of the last activity on the Prepaid/Debit account, unless alternative arrangements are expressly requested by the correctional facilities management. No refunds of unused balances will be issued after the expiration date.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)**3.6 Advance Pay Accounts**

In those areas where the Company does not have a direct billing agreement with the existing local exchange carrier, or upon a Customer's request, the Company will set up a Advance Pay Account with the Called Party (Customer) for payment of collect calls placed from institutions served by Global Tel*Link. Funds in the Customer's Advance Pay account may only be used for payment of collect calls placed by inmates to telephone numbers specified by the Customer. Establishment and maintenance of an Advance Pay Account is required to complete collect calls to Customers served by local exchange carriers with which the Company does not have an existing direct billing and collection agreement.

The minimum amount required to set up the Advance Pay Account is \$25.00. Upon request, and after the required minimum payment is received, the Company will provide the Customer with a personal identification number (PIN) and a toll-free number to call in order to set up the account information, including the permissible numbers that the inmate may call.

Additional payments will be accepted with a \$50.00 payment maximum. Initial and additional payments into the account may be made by cash, check, credit card or Western Union. Transaction fees will apply for credit card and check by phone transactions. All payments will be subject to applicable taxes.

When an inmate places a call, the Customer is informed of both the caller's identity and the account balance prior to accepting the call. Customers may also contact the Company's toll-free customer service number for account balance information at any time.

If the Advance Pay Account balance becomes depleted, calls placed to the numbers specified by the Customer will be blocked until the Advance Pay Account is replenished.

The Customer may close the Advance Pay Account at any time. At the written request of the Customer (usually upon release of an inmate from an institution), any remaining balance in the Account will be refunded to the Customer after deducting any call charges, applicable taxes and transaction fees incurred during the current billing cycle. Advance Pay Accounts will be automatically dissolved following three months of zero activity (i.e., no calls placed, no account replenishment, no customer service inquiries.)

All security measures and inmate calling restrictions as set forth elsewhere in this tariff are also applicable for any calls made using an Advance Pay Account.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)**3.7 Institutional Prepaid Operator Assisted Calling**

(N)

3.7.1 Prepaid Debit Accounts

With a Prepaid Debit Account, each inmate has the option to transfer funds from his/her personal account to his/her telephone account. This is accomplished by facility personnel or through a direct interface between the commissary system and/or booking account and the inmate phone system. This account is associated with the inmate's Personal Identification Number (PIN.) When the inmate places a call, he/she has the option of calling collect or prepaid/debit. Once debit is selected, the inmate enters the PIN and called telephone number. All deposits to the account are paid to and handled by the entity managing the account, e.g., JMS, facility, commissary, etc. The Company receives payment from the Institution; it does not engage in direct monetary transactions with the inmate.

The Company's system automatically informs the caller of the Available Usage Balance remaining in the Prepaid Debit Account, and provides prompts to place the call by entering the destination telephone number. Network usage is deducted from the Available Usage Balance in the account on a real time basis as the call progresses.

Payment for Prepaid Institutional Calling Services and any Available Usage in the Prepaid Debit Account is refundable upon request, after release of the inmate from the Confinement Institution. The Available Usage Balance expires three months from the date of the last activity on the Prepaid account. No refunds of unused balances will be issued after the expiration date.

3.7.2 Rates and Charges

- A. Option 1** - Rates and charges for Prepaid Debit Accounts are the same as those set forth in the Company's institutional collect call rate schedules.
- B. Option 2** - Rates and charges for Prepaid Debit Accounts are provided at a discount, per request of correctional facility.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)

3.6 Institutional Telephone Debit Accounts

3.6.1 Definition

This is a prepaid telephone account available to inmates and other incarcerated persons at correctional facilities that permit this service. Participating individuals elect to transfer funds either from their facility's inmate trust fund or a commissary account. The transfer method is either manual (vouchers) or electronic through a funds transfer interface between the Company and the facility or commissary.

3.6.2 Call Process

The Company establishes debit accounts which are associated with the inmate's personal Identification Number (PIN). When a call is placed, either the "collect" or "debit" option is selected. Once debit is selected, the inmate enters the called telephone number and PIN. The Company's system automatically informs the caller of the Available Usage Balance remaining in the Prepaid Debit Account, and the rates for the call being attempted. Network usage for completed calls is deducted from the Available Usage Balance at the conclusion of the call.

Any unused funds in a Prepaid Debit Account are refundable upon request. Refunds are issued by the entity controlling the actual cash deposits, which depending on the specific arrangements, is either the Company, the commissary, the correctional facility itself or its agent, unless otherwise directed by state law. The Available Usage Balance expires three months from the date of the last activity on the Prepaid/Debit account, unless alternative arrangements are expressly requested by the correctional facility's management. No refunds of unused balances will be issued after the expiration date.

3.6.3 Rates and Charges

- A. **Option 1** - Rates and charges for Prepaid Debit Accounts are the same as those set forth in the Company's institutional collect call rate schedules.

2.5.1. Public Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay or institutional telephone used to access the Company's services. The Pay Telephone Surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay or institutional telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

In cases where proper pay or inmate telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information that the originating station is an eligible pay telephone.

The Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.
